

DETERMOKET

LOW FOAM CARPET DETERGENT (INJECTION-EXTRACTION)

GENERAL DESCRIPTION

DETERMOKET is a foamless carpet detergent for the injection - extraction method particularly formulated for synthetic fibres. **DETERMOKET** can be used also as a stain remover and with the bonnet method.

DIRECTION FOR USE

Use **DETERMOKET** diluted at 10% with the injection extraction machine and warm water.

It is possible also to spray the product diluted at 10-15% directly on the carpet, in particular on the stains and to wash with the machine containing only warm water or a solution of **DETERMOKET** diluted at 1-2%.

Localized stains can be pre-spotted with the undiluted product, then soaked with warm water and removed by suction. For the bonnet system, use **DETERMOKET** at 20%, spray it onto the carpet and onto the bonnet fringes. Use a low speed machine or better a 200 - 300 machine.

DIRECTIONS FOR USE

Appearance	transparent yellow liquid
pH	11.3 ± 0.2
Density	1.052 g/ml
Active contents	25%

Chemical composition – Reg. (EC) 648/2004

- Anionic surfactants	conc. < 5%
- Non ionic surfactants	conc. 5-15%
- EDTA and salts thereof	conc. < 5%
- Soap	conc. < 5%

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004.

WARNINGS

Some types of woollen or jute-based carpets may be damaged on contact with water.

It can be useful to test the product in a corner to check the felting or the fading of the carpet. In case of jute-based carpet, avoid using extraction method because it makes the carpet too wet.

Labelling

Warning

Causes serious eye irritation.

Contains: Methylchloroisothiazolinone, Methylisothiazolinone. May produce an allergic reaction.

Read carefully the safety data sheet before use.
